BEST CUSTOM-MADE CAKES

## The Tiers of an Angel

Call it dessert sculpture, pastry engineering, sweet architecture. Just don't call it "cake decorating." That particular phrase doesn't begin to describe what **Stephanie Samuels** of **Angel Food Cake Studio** does in constructing her stunning custom confections for weddings and special occasions. Working out of her studio in Andersonville, Samuels has created cakes in all shapes and sizes that are both delightful to look at and delicious to eat ([www.angelfoodltd.com](http://www.angelfoodltd.com) or 773-275-5424).
